

USES 2 AAA BATTERIES

The ProSensor M90 uses more common and less expensive batteries to more easily keep your sensor operating.

EASY OPERATION

Ergonomic grip and button with instant press-and-scan operation.

13-INCH² SENSING AREA

The 9 sensors in the ProSensor M90 provide a larger sensing area for deeper, more accurate detection.

WIDE LED DISPLAY

The ProSensor M90's wide LED display makes it easy for you to visualize the location of studs.
