

The Franklin Sensors Warranty

Franklin Sensors offers a three-year warranty on all of its products. The products are warranted to be free from defects in material and workmanship under normal use and service for 3 years from time of purchase. At Franklin Sensor's discretion Franklin Sensors will either repair, or replace with an equivalent product.

This warranty does not cover incidental or consequential damages such as physical injuries, property damage, loss of time, loss of use of the product, inconveniences, or accommodations resulting from failure of the products.

The function of the products is not guaranteed. For example, for stud finders it is possible that there may be wood, metal, wiring, or other objects behind the surface that are not detected. It is also possible that stud finders may detect pipes, wires, or other objects that the user may not want it to detect. The stud finders are designed to detect any inconsistency without identifying the nature of the inconsistency. The stud finders do not identify what type of object they detect. The illuminated LEDs may indicate the location of many different features including, but not limited to, studs, beams, water pipes, gas pipes, wires, an inconsistency in the surface material or paint, etc.

Franklin Sensors shall not be liable for any special, indirect, incidental or consequential damages or losses, whether arising from breach of warranty or based on contract, tort, reliance or any other theory. Since some countries or states do not allow limitation of the term of an implied warranty, or exclusion or limitation of incidental or consequential damages, the limitations and exclusions of this warranty may not apply to every buyer.
